Quality Improvement Plan:

As part of our yearly practices at Little School, we create a Quality Improvement Plan (QIP). The purpose of a QIP is to make a strategic plan based on stake-holder feedback and best practices in education to continue to offer quality education to each child in our care. In addition, our QIP will be observed and analyzed as we go through an accreditation/higher-level-rating process through Colorado Shines this year.

Part of our QIP is to share our parent survey results with all of you. We have added suggestions from your surveys to our QIP plans as well. If you would like to see our QIP in its entirety, please stop by our Parent Resource Center located next to the front office on the purple bookshelf. Copies of the survey results can also be found at the Parent Resource Center as well. Please email me or stop by the office if you would like more information regarding our QIP and our parent survey results.

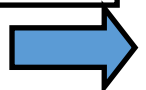

First Semester Parent Teacher Conferences are occurring now through the end of November. We like to speak to each of you regarding your children twice each year. The first semester conferences are more informal in that each teacher handles their conferences their own way. Your child's teacher will reach out to you between now and the end of November to share your child's progress report with you and discuss how your child is transitioning to Little School.

Thank you to Rhea McMahan for coming to take new headshots of our staff.

The photos are beautiful!
